

BIO-CIRCLE

CASE STUDY SNAPSHOT

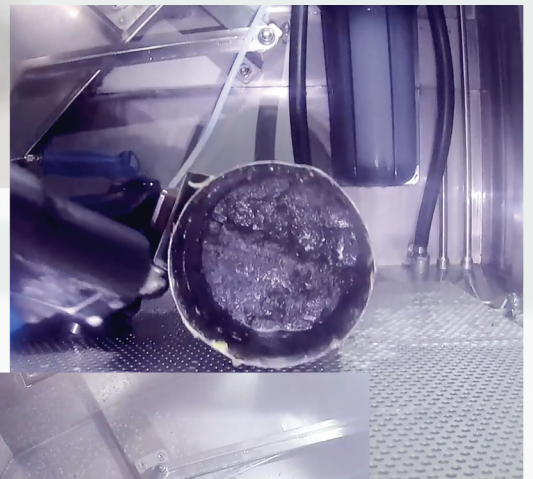

BIO-CIRCLE GT Maxi & HP VIGO

INDUSTRY: Motorsport

CLEANING APPLICATION: Cleaning high precision F1 parts. These parts are often very complex and therefore require sensitive, superior and non abrasive cleaning. The parts can be gearbox or engine components, suspension or braking systems.

BIO-CIRCLE CLEANING PROCESS: **BIO-CIRCLE Maxi x2, HP VIGO x2** plus the cleaning liquid **BIO-CIRCLE L Evo**.

THE RESULT: Safer, more sustainable and carbon-reduced cleaning without the use of brake cleaner or solvents, plus a happier workforce!

BIO-CIRCLE L Evo

Ready to use

Suitable for use in the food industry

VOC free
