

BIO-CIRCLE

CASE STUDY SNAPSHOT

INDUSTRY: Rail

CLEANING APPLICATION: Greasy axles

BIO-CIRCLE SYSTEM/ LIQUIDS USED: 200L drum filled with the cleaning liquid **CB100**. The axles are dipped in the drum. Previously the axles had been dipped in solvents

CUSTOMER REQUIREMENT: An improved cleaning process that is odour-free and cost-efficient

THE RESULT: Improved cleaning power. No bad odour. CB100 is also lasting the customer 3-4 times longer than the solvent in their previous cleaning process. Powerful cleaning, cost efficient, minimal waste, odour free.

VOC free

Optimal performance, protection of employees, reduced environmental impact

Unlabelled according to CLP Regulations

Suitable for use in the food industry

Ready to use
