

BIO-CIRCLE

CASE STUDY SNAPSHOT

GT Maxi & CLEAN BOX

INDUSTRY: Plant machinery remanufacturing

CLEANING APPLICATION: Prepping & cleaning parts for the refurbishment of machines & engines

EXISTING CLEANING PROCESS: Corrosive cleaners and solvent based parts washers

THE PROBLEM WITH THIS: Hazardous/ corrosive cleaners being used. Clean end-result not optimal.

BIO-CIRCLE CLEANING PROCESS: **BIO-CIRCLE GT Maxis** with **BIO-CIRCLE L Ultra** for cleaning & **CLEAN BOX** with **CB 100** for pre-cleaning

THE RESULT: Happier workforce using low-risk cleaners. Better cleaning result better than with solvents.

CB 100

Ready to use

VOC free

Unlabelled

Optimal performance, protection of employees, reduced environmental impact

Suitable for use in the food industry
