

BIO-CIRCLE

CASE STUDY SNAPSHOT

PROLAQ AUTO

INDUSTRY: Bus

CLEANING APPLICATION: Cleaning parts used in the painting (maintenance) of buses

EXISTING CLEANING PROCESS: Corrosive, solvent-based cleaner

THE PROBLEM WITH THIS: The main complaints from the maintenance team were the unpleasant odours from the solvents

BIO-CIRCLE CLEANING PROCESS: PROLAQ AUTO and PROLAQ L 400

THE RESULT: Happier workforce - no odour nuisance, more powerful cleaning, non-hazardous chemicals. They also saw an increase in service life of the liquids, meaning cost savings too.

PROLAQ L 400

Ready to use

Label-free according to CLP regulations
