

# BIO-CIRCLE

## CASE STUDY SNAPSHOT

BIO-CIRCLE GT Maxi

**INDUSTRY:** Metalworking/ automotive/ transportation

**CLEANING APPLICATION:** Cleaning steel & stainless steel parts

**EXISTING CLEANING PROCESS:** Solvents were used but caused a solvent fire with significant damage

**BIO-CIRCLE CLEANING PROCESS:** **BIO-CIRCLE GT Maxi** plus the cleaning liquid **BIO-CIRCLE L**.

**THE RESULT:** The aim was to convince the sceptics in the company that cleaning without solvents can be fast and effective. There was extremely positive user feedback - excellent cleaning results, pleasant odour, working without protection mask & coverall - and two further GT Maxis were ordered after the testing phase.

**A VOC-free and non-labelled cleaner!**

### BIO-CIRCLE L

Ready to use

Suitable for use in the food industry

VOC free
