

# HP VIGO

#CleanWithHighPressure

## THE NEW, IMPROVED HP VIGO

manual parts cleaning at high pressure level in a closed washing cabin:

higher payload of **150 kg** and larger opening angle of the lid, with the possibility of crane loading. The fan jet nozzles guarantee a **better view** through optimal windscreen cleaning. For a powerful and reliable cleaning of components with complex geometries. A must-have in Maintenance.

- ▶ **REMOVES** heavy soiling such as oil, grease, environmental dirt, etc.
- ▶ **CLEANS** stainless steel, steel, plastic and varnished surfaces
- ▶ **Increased occupational safety, reduced operating costs** → through the use of our recyclable, VOC- and label-free cleaners and degreasers
- ▶ **Up to 80 bar adjustable working pressure via a high-pressure nozzle**
- ▶ **Payload up to max. 150 kg**
- ▶ **Loading by crane possible** → larger opening angle of the lid
- ▶ **Clearer view** → optimal pane cleaning through fan jet nozzles
- ▶ **High-pressure cleaning only possible with closed washing chamber, the high-pressure pump is activated by a foot switch**
- ▶ **Compressed-air pistol for drying the parts**

	HP Vigo
External dimensions (L x W x H)	1157 x 768 x 520 cm
Power supply	230 V, 50 Hz, 2 kW
Payload	150 kg
Capacity	90 L
Order number	<b>G30027</b>

RECOMMENDED CLEANING AGENTS:	
Liquid EVO	Low-foaming cleaner with microorganisms, for manual and automatic cleaning, ideal cleaning temperature: 45 °C
CB 100	Suitable for the food industry
