

BIO-CIRCLE

CASE STUDY SNAPSHOT

"800% increase in service life!"

INDUSTRY: Maintenance company for freight trains

CLEANING APPLICATION: Bearings

BIO-CIRCLE SYSTEM/ LIQUIDS USED: **CB 100 Alu** in **HTW at 55 degrees**. Previously a corrosive cleaner was used at 65 degrees in an automatic parts washer (from another manufacturer). It had a service life of just 14 days before it needed replacing.

CUSTOMER REQUIREMENT: An improved cleaning process that has a reduced waste chain (especially in disposal), is more energy efficient and safe for personnel.

THE RESULT: Increased **service life to 18 weeks!** Plus more energy efficient cleaning with a reduction in temperature by 10 degrees. Removed a step in the cleaning process.

**CB 100
ALU**

VOC free

Optimal performance, protection of employees, reduced environmental impact
