

BIO-CIRCLE

CASE STUDY SNAPSHOT

BIO-CIRCLE HP

INDUSTRY: Bus

CLEANING APPLICATION: Cleaning small parts at a producer of bus & truck parts & spare parts

EXISTING CLEANING PROCESS: Corrosive, solvent-based cleaner

THE PROBLEM WITH THIS: Health, safety & environmental issues. Hidden costs, especially in relation to compliance, storage and specialist disposal. Uneconomical and not energy efficient. High turnover of cleaner used.

BIO-CIRCLE CLEANING PROCESS: **BIO-CIRCLE L Star** in a **BIO-CIRCLE HP**

THE RESULT: Happier workforce using low-risk cleaners. Great cleaning result with a hugely reduced environmental impact. Cost of compliance & storage cost of cleaners minimised.

BIO-CIRCLE STAR 100

Can be diluted

VOC free
