

# BIO-CIRCLE

## CASE STUDY SNAPSHOT

**INDUSTRY:** Rail

**CLEANING APPLICATION:** Small parts contaminated with rust

**EXISTING CLEANING PROCESS:** Manual sandblasting

**THE PROBLEM WITH THIS:** Very time consuming & laborious

**BIO-CIRCLE CLEANING PROCESS:** Soak parts overnight in BIO-RUST F

**THE RESULT:** By morning almost all of the rust has gone. The new derusting process saves a huge amount of time.

*"by morning almost all of the rust is gone!"*
